JUMBO  COLLECTION  
*luxurious furniture*

# *Prestige*

Tradition is the “leading thread” and most important feature our Prestige Collection. The use of particular wood types: aned ash briar, element rosrwood detail. That allows all different elements included in the Prestige Collection to become a “sole moment” in the concept of cabinet making. The emphasis offered by precious details: black ebon inlays carved into the bribe wood. The severe refinery of bribe wood emphasized by gold-plated brass decoration with their antique effect. All elements composing the Collection have a glazed semi-polished surface.
