

# Miele Wine Storage Assortment

# Immer Besser (forever better)

## Our Pledge —

When our two great-grandfathers were in the process of founding the Miele company, they had to make sure they stood apart from the competition in order to be successful. There are effectively only two ways of doing this: either by being cheaper than the rest or by being better than the rest. It is not really possible to be both at the same time.

They decided to be “better” than the rest.

Numerous best in class awards and certificates attest to the fact that Miele has continued to renew its commitment to being “Immer Besser” throughout the past 116 years. However, the millions of satisfied customers around the world are perhaps the most important endorsement.

At the heart of this success lies a continuity of values and goals which are typically only found in companies which have been family-run for generations, rather than in businesses which are guided by the often short-term interests of the stock market.

It is in this sense that Miele has embodied first-class product quality and German engineering since 1899. Miele also stands in equal measure for respect, fairness and mutual esteem towards sales partners, customers, suppliers, employees and neighbors. Buying a Miele is an environmentally friendly decision. We ensure this by using methods of production that save resources as well by producing products which set new standards in terms of their consumption of electricity, water and detergent — and save you money at the same time.\*

As directors and co-proprietors of the fourth generation of our business we promise you that this will not change.

Dr. Markus Miele

Dr. Reinhard Zinkann

# Miele Wine Storage

Exquisite presentation for exceptional wine.

As much as you treasure your valuable collection of wines, we treasure the technology that protects it. Our dynamic cooling systems safeguard your wines from unwanted fluctuations in temperature, humidity and vibration.

With individually controlled temperature zones for different types of wine, your reds, whites and sparkling wines are guaranteed professional treatment. You can also feel confident that wine bottles of different shapes and sizes will be stored securely.

Not only does a wine storage unit provide the best storage conditions for your wine, it will also look the part in your home. At Miele, we provide a full range of wine storage units to meet your needs. Our built-in MasterCool™ units will blend in harmoniously with your kitchen appliances and decor. If space is limited, our under-counter wine units fit seamlessly into any island. Or, we also offer a freestanding unit which allows for the ultimate in flexibility.

## MasterCool™

Impressive look; unsurpassed quality.

With the development of the large capacity MasterCool™ appliances, Miele set new standards. A unique range of built-in refrigerators, freezers and wine storage units features high-end design, impressive innovations and inimitable convenience features. Each and every detail has been honed to meet the exact requirements of your particular food and beverage storage needs. Using only the very best materials, this range reflects quality. With MasterCool™ you can experience pleasure and convenience on a whole new level.

With four models to choose from, you are sure to find the perfect complement to your kitchen needs. Blend in with our custom panel versions: KWT 1603 Vi and KWT 1613 Vi or go stainless steel with our Clean Touch Steel™ frame variants: KWT 1603 SF and KWT 1613 SF.

# MasterCool™ Features and Highlights

## ClearView™ Lighting System

A unique LED system, that doesn't affect the interior temperature, allows you to tastefully display your treasured collection. When the door is opened, a more dramatic ClearView™ halogen-based lighting system is activated so that you can view everything inside.

## MasterCool™ Controls

Controlling the humidity level is important for long-term storage, so that corks are kept at the optimal moisture level. The MasterCool™ interface enables users to set the exact required temperature. Sophisticated technology that works to guarantee a perfect storage.

## 3 Temperature Zones

Three unique cooling zones, each with independent controls, are available to store or temper champagne and wine (white or red) at their ideal environmental condition all at the same time.

## 14 Rack Levels

Regardless of the cooling zone, each bottle is gently cradled on one of 14 shelves made of high-quality wood. Two of these shelves are fixed in place to separate the cooling zones while the rest are FullView™, extendable shelves which make choosing your wine selection effortless.

## Tinted Glass Door

Perfect conditions: the tinted glass door protects wine from exposure to ultra-violet light and ensures that a perfect micro-climate is maintained.

## Remote Vision™

If the door is left ajar, or a component malfunctions, the loss and inconvenience could be extensive, especially with valued wines. With RemoteVision™ you will enjoy peace of mind because if a significant fault occurs, Miele's client service center will be notified and contact you.

# Under-counter Wine

## Wine storage with style.

Although space in your kitchen may be limited, Miele's under-counter wine storage offers you the freedom to store and temper your wine in a more compact unit. With our KWT 6312 UGS, a single zone unit featuring a luxury SommelierSet, you can store up to 46 bottles. Or choose the dual zone unit, KWT 6322 UG which fits up to 34 bottles.

The units are also side-by-side capable so you can seamlessly combine one of each or two of the same. With a unique Push2open door, it is even more seamless without handles protruding out. They integrate perfectly into your kitchen design and are real eye-catchers without sacrificing full cabinet space.

In both units, electronic controls safely eliminate any temperature or humidity fluctuation, always ensuring the perfect glass of wine. The features of these units are as individual as the wine stored in them.

# Under-counter Wine Features and Highlights

## Push2open Door

With a simple touch of the door, your Miele wine storage unit will open with ease. Miele's unique Push2open feature does not require a handle and therefore can be seamlessly integrated into any kitchen design.

## TouchControl

For the best storage conditions, the ideal temperature for your wine can be selected via the intuitive user interface. A clear, concise display with digital indicator allows precise temperature control. The smooth surface is also very easy to clean.

## LED Lighting

The indirect lighting is atmospheric and highlights the high quality of the materials. LED lights are maintenance-free and provide optimum illumination of the interior compartment. LEDs are energy-saving and have a very long life.

## FlexiFrame

Versatile bottle racks made from high-quality beachwood offer the perfect hold for every bottle. Individual wooden dividers (slats) can be easily repositioned within the frame to suit different bottle sizes.

## Capacity

The single zone unit KWT 6312 UGS stores up to 46 bottles\* or the dual zone unit KWT 6322 UG stores up to 34 bottles. The choice is up to you.

\*Without SommelierSet

## SoftClose Door

An innovative door closing system from Miele which closes the refrigerator and freezer doors silently and as if of their own accord. The SoftClose feature ensures that the door closes gently, preventing bottles in the door rack from rattling.

# Freestanding Wine

## Top class wine presentation.

Miele offers a wine storage unit that is not limited to the walls of your kitchen. This large capacity unit allows you to entertain and enjoy your valued wines wherever you see fit.

Whether it's your dining room or library, appreciate your vintage without being tied to the kitchen. With the capability to store up to 178 bottles (neck to neck), this is the largest unit Miele has to offer. Your valuable collection will also be perfectly protected with its UV glass door, giving you even more ease of mind.

Experience the mobility of having your wine in any entertainment space within your home. Miele offers the benefits of wine preservation with the elegance of Miele. With this innovative unit, there are endless possibilities.

KWT 6832 SGS

# Freestanding Wine Features and Highlights

## Room for up to 178 bottles\*

The freestanding wine storage unit can store up to 178 wine bottles neck to neck, providing optimum storage.

## NoteBoard

All bottle racks feature magnetic NoteBoards. Information such as the origin of the wine, varietal or vintage, can be written on the boards using chalk. They can be conveniently removed or updated as needed.

## Temperature Zones

Three separate temperature zones permit storage of different types of wine. Each zone can be individually adjusted for your wine varieties to be stored at the same time.

## FlexiFrame

Versatile bottle racks made from beachwood offer the perfect hold. Individual wooden divider slats can be easily repositioned to secure each bottle, regardless of shape. This reduces vibration and rocking that is harmful to the wine.

## SommelierSet

Declare your wine storage as an area of pleasure for wine connoisseurs. With a glass holder and ConvinoBox, you gain more functionality. Enjoy champagne and white wine from chilled glasses, and perfectly conditioned opened bottles.

## Selector Bottle Presenter

With the Selector Bottle Presenter you can showcase the highlights of your wine collection. The solid wood presenters raise the bottles slightly and allow other bottles to be stored at the back.

Without SommelierSet

## SommelierSet

The SommelierSet complements your wine conditioning unit with high-end accessories such as a decanter rack, glass holder, ConvinoBox and accessory box. Impress your guests by decanting your fine wine like a true wine connoisseur.

Everything you need for your wine is now at your fingertips.

There is a unique SommelierSet that accompanies the single zone under-counter unit, KWT 6312 UGS and the freestanding unit, KWT 6832 SGS.

### ConvinoBox

Store opened bottles in an upright position in your wine unit. Individually adjustable dividers provide a secure hold for the bottles, keeping the wine perfectly conditioned.

### Glass Holder

Wine glasses can be cooled to a consistent temperature for the wine you are enjoying. Sparkling and white wines stay fresh and cool longer. A small difference with a big impact.

### Accessory Box

Store all important utensils in the wooden accessory box and always have them readily at hand. For those who collect corks, the Accessory Box serves a two-fold purpose.
