Luxurious free-standing baths

Introduction

Clearwater have used international designers to bring together a stunning and elegant range of free-standing baths using the finest materials and engineering. Our Modern designs reflect today's contemporary styles, whilst our classical collection includes free-standing, classical roll top designs and period style. If you are looking for a beautiful free-standing bath for your home, Clearwater offers exquisite solutions for every bathroom requirement.

INDEX:
For full index see inside back cover.

DESIGN. THE MODERN COLLECTION Pages 04 to 39
Our beautifully crafted and extensive modern collection has been designed to offer the very best of contemporary style. By using the best materials, our designers have created baths with thinner rims, increasing the internal space whilst allowing for smaller external sizes. So now free-standing baths can fit into bathrooms of modest size, providing an eye-catching centrepiece and that extra piece of luxury. Many of our popular models are available in full and Piccolo sizes, with the Piccolo internal space just as generous as most conventional baths. Our latest bath, the Nebbia also brings the ultimate in ergonomic relaxation by shaping to the human body.

DESIGN. THE CLASSICAL COLLECTION Pages 40 to 49
For a true vintage look in your bathroom, choose from our range of classical models, covering every installation and size requirement. There are roll top baths with a choice of feet in various

styles and colours, so you can tailor your bath to your own individual tastes and to work seamlessly with your own décor and bathroom surroundings.

MATCHING BASINS Page 64 to 65
To co-ordinate with our baths, several designs have matching basins crafted from our velvety soft Natural Stone, to continue the feeling of luxury throughout your bathroom. Choose from sleek modern designs or classical shapes to complement your chosen bath.

TAPS AND MIXERS Page 66 to 75
To complete the picture we have partnered up with Britton and Burlington to provide both exceptional modern and classical brassware, which lead the field in innovation.

INSTALLATION. All our baths are designed with simple installation in mind. Full instructions and drawings are available on our website and can be downloaded so the installer can prepare and first fix, ready for when the bath arrives. All baths are carefully packaged for full protection during transit and all Natural Stone baths come with a multi-handle carrier to help handling on site.

Materials, engineering & installation

Clearwater has years of experience in designing and making free-standing baths and only use the highest quality materials.

NATURAL STONE. Without doubt the finest material for a bath is Natural Stone, for it provides a rigid and strong bath of great elegance, without any need for ledges or surrounds. Natural Stone allows the design of all the rims and edges to be far sharper than regular baths giving a stunning appearance and providing a more spacious and deeper bath for a truly relaxing experience. Each of our Natural Stone baths are hand polished for over ten hours providing a gorgeous velvety finish. The baths and basins are 'one piece solid surface baths' meaning there are no unsightly joins, just clean dynamic lines adding a real touch of class to your bathroom.

Natural Stone baths and basins can retain that 'brand new look' for many years as small scratches/blemishes can easily be removed, full details can be found on the Clearwater website.

LAR. Due to the shape of our Teardrop baths we manufacture them using a special process called LAR (Liquid Acrylic Reinforcement).

Modern

Clearwater has an extensive range of free-standing modern baths including stunning Natural Stone in both standard and Piccolo sizes, a solution suitable for smaller bathrooms. Alternatively, choose from beautiful, ergonomic baths, shaped to provide the ultimate relaxing bathe. All are exquisitely crafted to provide a gorgeous centrepiece in contemporary bathroom settings.

LAR *Teardrop Large & Small, page 36-39*

NEBBIA Natural Stone A beautiful ergonomic bath, shaped and styled to provide the ultimate supportive bathe that feels as if you are floating. The shapely lines of this striking modern bath continue at the base meaning your entire body is supported at the perfect angle.

This bath has to be the ultimate place for relaxation. The Nebbia bath has been moulded around the human body for the ultimate feeling of comfort. The clever use of the patented channels on the side of the bath allows the water to drain, without interfering with the ergonomic shape.

The gentle curves of the Nebbia support the human body, removing the need to 'prop' the body up with the feet on the far end of the bath.

Nebbia bath €2335, click-clack bath waste and Crystal floor-standing bath filler €772.

See page 52 for technical details on the Nebbia bath.

FORMOSO *Natural Stone* This elegant and understated, popular bath is available in two sizes and has clean and simple lines, which create a shapely aesthetic well suited to all modern day bathrooms. Pair with the matching Formoso basin for a beautiful and design linked bathroom.

Formoso bath €2335, Crystal floor-standing bath filler €772 and click-clack bath waste €39
Formoso bacino basin €463, Crystal Tall basin mixer €268 and click-clack basin waste €26.
In order to make our Formoso baths suitable for more applications we are removing the integrated overflow. You will be able to have an overflow by using an external overflow as shown on page 76. Ask your local dealer about timings of this product improvement.
See page 53 for technical details on the Formoso baths and page 64 for the Formoso basin.

FORMOSO PICCOLO *Natural Stone*

The same minimalistic, beautiful design of the Formoso bath, but with a smaller 150cm length to fit into most modern bathrooms.

The internal space of this bath is bigger than most full size normal baths, thanks to its narrow rim.

Formoso Piccolo bath €2335, Sapphire floor-standing bath shower mixer €854 and slotted click-clack waste €39.

In order to make our Formoso baths suitable for more applications we are removing the integrated overflow. You will be able to have an overflow by using an external overflow as shown on page 76. Ask your local dealer about timings of this product improvement.

See page 53 for technical details on the Formoso piccolo bath.

NEW ARMONIA *Natural Stone* A classic natural stone shape with extra attention to detail on the thin rim and inward sloping design of the outer shape. A larger bath with a comfortably spacious interior. Pair with our Crystal bath filler on stand pipes for a striking yet simple design.

New Armonia bath €2335, Sapphire floor-standing bath shower mixer €854 and slotted click-clack waste €39. Suntuoso Bacino basin €463, Crystal Tall basin mixer €268 and click-clack basin waste €26.

See page 54 for technical details on the Armonia bath and page 64 for technical details on the Suntuoso basin.

EASY INSTALLATION Every Natural Stone bath comes with a simple installation guide. All baths are supplied in individual boxes - so they reach your home in perfect condition. In addition we supply each bath in a carrier bag - so that it is easy for installers to move the bath to the proposed location in your bathroom.

HAND MADE Each Natural Stone bath is hand made by three people. It takes over ten hours to hand polish every bath. The baths are 'one piece solid surface baths' meaning there are no joins.

The baths retain that 'brand new look' for many years as small scratches/blemishes can easily be removed.

Burlington Bath Taps

Clearwater has paired up with Burlington to offer a range of beautiful, classical brassware perfectly matched to your chosen Clearwater bath or basin. Choose from either the Anglesey, Claremont, Birkenhead or Kensington tap head ranges and add these to basin taps, bath fillers or bath shower mixers packed with innovative technology and unique features.

For more information on the water saving benefits and innovative design features of Burlington taps, please see the Burlington brochure or visit burlingtonbathrooms.com

Classical screw-down Quarter turn

QUARTER turn
All our taps (except Kensington) come with the classical screw down valves as standard. For 'Quarter Turn' simply add

Claremont deck-mounted bath shower mixer with "S" adjuster, see page 72 for details

TAP HEADS

All available with any tap base for all applications

Anglesey
Add AN to the start of the code

Claremont
Add CL to the start of the code

Birkenhead
Add BI to the start of the code

Kensington
(Quarter turn only)
Add KE to the start of the code

STANDARD OR REGENT

All available with any tap base for all applications

Standard

To turn your standard taps into taps with Regent bases, simply add 'R' to your code. For example; your Claremont 3" basin taps (CL1) become Claremont Regent 3" basin taps (CLR1).

All our taps (except Kensington) come with the classical screw down valves as standard. For 'Quarter Turn' simply add 'QT' to the product code.

Regent (Additional €24 each)

Regent tap bases have been designed so that the spouts are 3cm higher off the bath/basin (and a further 3cm away from the wall in the case of Regent wall-mounted taps) than their equivalent namesake. This creates an opulent feel and, in certain commercial applications, ensures compliance with some archaic building regulations.

Technology

Named Fire Hydrant due to its classic design, this is a very distinctive waste system that operates from the plug hole. Water fills the hydrant which incorporates a built in overflow and plug system, simply lift the handle to empty your bath. This waste system adds a level of opulence to your bathroom.

Fire Hydrant technology
The waste pipe in our 'Fire Hydrant' is designed so that you can change the angles to fit into your waste in the floor.
Fire Hydrants can be used in a free-standing position.
