WELCOME

A deep connection has always existed between man and the elements of nature.

Air; water; earth and fire evoke the mind and body to stimulate the senses, provoke the emotions and influence our behaviours.

'Elements of desire' is the driving force behind The Jacuzzi® Designer Range and continues to influence our

product range. From the use of space (air), the heightened sense of well-being and pure pleasure experienced during bathing (water), to the choice of materials used in manufacture (earth) and a passion for design (fire) enable us to create highly desirable, bathroom products that not only look superb but perform to the highest standards achievable.

AIR—

NEW IDEAS, INNOVATIVE THINKING
AND AN OBSESSION WITH DETAIL
DESIGNED TO BREATHE NEW LIFE
INTO ALMOST ANY SPACE

THE JACUZZI® DESIGNER RANGE

We all aspire to the finer things in life. The flawless diamond, the house in the country or the latest designer technology – a Jacuzzi® bathroom is no exception.

In a world where luxury brands compete for your attention, with the promise of temporary euphoria there exists a brand who's mere name conjures up a vision of unparalleled luxury and a promise of the finest quality – even in those who have never experienced its products: Jacuzzi®.

It transcends language, cultural and lifestyle differences and makes a statement about you that other brands can only dream about. It's a promise of pure unadulterated pleasure that is not only an indulgence but an important component in the overall management of the body's physiology: Jacuzzi®.

The first whirlpool bath was invented in 1968 by Roy Jacuzzi, who added a jet of massaging air and water to a standard bath tub. Things have changed somewhat since those early days and Jacuzzi® hydromassage has become a widespread phenomenon that has revolutionised the way people imagine and experience the bathroom.

Continuous development and product innovation has always been the life-blood of the brand Jacuzzi® and our commitment to quality and style has kept us at the forefront of contemporary design for over 40 years.

Jacuzzi® boasts many original patents and an enviable product range that encompasses whirlpool baths, baths, steam and shower cabins, enclosures, bathroom suites, furniture and accessories and of course hot tubs. Advanced manufacturing techniques means a difference in quality that can be experienced as well as seen.

After all when you're number one why settle for second best.

The heart warming glow of nature, captured in the colours of natural wood. Cool contemporary lines, as gentle as a summer breeze and as desirable as a hot summer day.

From modern and dynamic to timeless and sophisticated, Jacuzzi® Designer Range features dramatic styles that redefine the bathroom with functionality and form that is simply breathtaking.

The Morphosis Omega hydromassage cabin is a perfect example of this – a sculptured fusion of natural Teak, glass, steel and chrome designed in collaboration with the Design House Pininfarina and a future design classic.

Materials used in the manufacture of our products are carefully selected for their durability as much as their style and will retain their beauty and performance characteristics for years to come.

It is however, our obsession with attention to detail that really differentiates our Designer Range from the mainstream.

All our showers are treated with mould inhibitors on the seals to aid cleaning and have tempered glass for added strength and safety. All of our whirlpool baths offer a luxury bathing depth of 42cm and combine state-of-the-art technology with a wide range of carefully co-ordinated hydromassage jets which provide the ultimate bathing experience.

They often say that imitation is the sincerest form of flattery and we should know – other manufacturers have been trying to imitate the genuine Jacuzzi® jet system for years but without success. Laboratory tests prove that no other manufacturer comes close to the deeply penetrating, massaging power of the Jacuzzi® designer jet which delivers a water flow of 50 litres per minute mixed with air.

Real luxury is when the things you can't see are as beautiful and functional as the things you can see.

Elements of desire.

WATER—

HEIGHTEN YOUR SENSE OF
WELL-BEING BY IMMERSING
YOURSELF IN LUXURIOUS
BATHING PLEASURE

THE JACUZZI® DESIGNER RANGE

Fluid shapes that embrace the body and stimulate the mind. Immerse yourself in the comforting rejuvenating properties of steam and feel refreshed and invigorated by the power of the waterfall.

Our latest showering range is unlike anything you've ever experienced before. A perfect blend of creativity and technology.

JACUZZI® – SUPERIOR BY DESIGN

Steam Cabins

- // Exclusive Jacuzzi® Clearglass coating for ease of cleaning
- // All our steam cabins are multi-functional, offering overhead, body jet and hand held showering experiences
- // To ensure the ultimate relaxation all our cabins come with seating as standard or an optional extra
- // Designed and manufactured in Italy for stylish good looks
- // An essential oil dispenser allows you to enjoy your favourite aromatherapy oils whilst relaxing
- // An electronic descaling system keeps your cabin in peak condition

Enclosures

- // Exclusive Jacuzzi® Clearglass coating for ease of cleaning
- // Concealed fixings for a contemporary streamlined appearance
- // A minimum enclosure height of 185cm to enable people of all heights to shower in comfort and ensure maximum water retention
- // Seals and gaskets are treated with mould inhibitor to aid hygiene and ease cleaning

Column Option 2

Height adjustable shower head, hose and riser rail.
4 directional massaging body jets
Thermostatic control.

The tower column concept was developed to meet the needs of discerning users wanting a mix of style and beautiful ergonomics. The J-Tower cleverly integrates the centrepiece shower column into the support structure to provide a fabulously unique enclosure. A choice of two columns provides invigorating showering and massaging options whilst the choice of walk-in or wave enclosures offers door free access or total enclosure.

ATREO

Atreo is an exciting wet room concept designed to be both beautiful and adaptable.

There are two sub categories within the Atreo range; all are distinguished by the overhead bracket. The walk-in range encompasses a striking walk through and all models have a pivoting deflector. Many configurations can be achieved as the side and front panels are not linked allowing flexibility when positioning the enclosure within the bathroom.

The hinged range encompasses flat doors and quadrants.

ATREO 150 WALK THROUGH

Range	Atreo
Finish	Silken matt silver
Size	150 x 90cm
Height	208cm

Design Features

6mm glass with Jacuzzi® Clearglass coating for ease of cleaning // pivoting curved panels allow you to further open up your walk through.

Aura Uno	58 - 59
Morphosis	60 - 61
Define	62 - 63

ANIMA FREESTANDING

Cocoon yourself from the noise and stress of the outside world in the protective shell that is the Anima freestanding bath. This generously proportioned bath allows total immersion of the body whilst the visible Teak, Wenge or Urban wood frame raises the bath slightly to create a truly regal bathing experience.

Range	Anima
Finish	White
Size	190 x 100cm
Height	60cm

Design Features

Fully encapsulated for strength and rigidity // 2 headrests // comes in a choice of Teak, Wenge or Urban wood finishes.

Optional Extra

4 piece brassware set.

Wood Colour Options

Teak

Wenge

Urban wood

As wood is a natural material, any inconsistencies in the colour or changes over time are considered part of its natural beauty.

ARDORE FREESTANDING

The Ardore concept redefines the freestanding bath turning it into something to behold and the centrepiece of even the most stylish bathroom. With its sleek lines, two tone finish and distinctive shape the Ardore features a luxury bathing depth that allows total immersion and a gel backrest adds to the bathing experience.

Range	Ardore
Finish	White/black
Size	193 x 94cm
Height	68cm

Design Features

Gel backrest // deep and wide bathing experience // two tone, white bath, black gloss panel.

AURA UNO

Beautiful to look at and wonderfully versatile the Aura Uno can be sunk into the floor, raised decking or platform. You can be sure that the Aura Uno will look just as good in whatever surround you choose, Teak, Wenge or one of three stylish Italian marble finishes. The concealed overflow under the surround enhances its sleek lines further.

Range	Aura
Finish	White
Deck Colours	Teak, Wenge
Optional Upgrade	Italian marble
Size	180 x 90cm
Height	66cm

Design Features

Soft headrest // concealed overflow // luxury bathing depth.

Optional Extra

4 piece brassware set.

Wood Colour Options

Teak

Wenge

Marble Colour Options

Carrara white

Medea stone

Absolute black granite

As wood is a natural material, any inconsistencies in the colour or changes over time are considered part of its natural beauty.

MORPHOSIS FREESTANDING

With its soft flowing contemporary contours and outstanding strength the Morphosis Freestanding bath is the perfect complement to the Morphosis suite featured on pages 120 - 123 and will provide a dramatic sense of theatre to almost any bathroom setting.

Range	Morphosis
Finish	White
Size	190 x 95cm
Height	60cm

Design Features

Totally seamless finish // superior strength // wide tap platform.

Optional Extra

4 piece brassware set.

DEFINE FREESTANDING

Inspired by geometric shapes the seamless Define Freestanding bath would suit any of the suites in the Jacuzzi® Designer Range. However; its contemporary shape lends itself particularly well to the Nexus range featured on pages 116 - 119. The extra depth of this bath combined with the gel cushion headrest provides a luxuriously deep bathing experience.

Range	Define
Finish	White
Size	188 x 94cm
Height	70cm

Design Features

Totally seamless finish // superior strength // headrest with gel cushion technology (also available in blue and orange) // luxury bathing depth.

Lie back and immerse yourself in the warm sensual feeling that only a true Jacuzzi® hydromassage can provide as invisible hands deeply massage every inch of your body – relaxing, soothing, regenerating.

The healers of India call it Prana, the restorative energy that resides in water and air; it's also the power behind the genuine Jacuzzi® whirlpool system used throughout our whirlpool baths.

JACUZZI® – SUPERIOR BY DESIGN

Whirlpool Baths

- // Designed and manufactured in Italy for stylish good looks
- // Jets are positioned to perfectly target the main muscle groups on the body
- // Our jets circulate large volumes of water at low pressure for a powerful massage and outstanding performance
- // Fully adjustable jets allow personalisation of your massage to target your preferred body area
- // Rigid pipe work ensures that the bath drains completely to prevent standing water
- // Baths are wet tested in our factory to ensure they arrive in perfect working order
- // Supported by a steel chassis for strength and rigidity, with adjustable feet to combat uneven floors
- // Jacuzzi® sanitising solution is available as optional extra
- // An automatic switch off system activates after 20 minutes to allow you to forget about time and enjoy your hydromassage
- // A luxury headrest is available as standard or an optional extra for even greater comfort
- // Jacuzzi® Designer whirlpool baths feature the most powerful whirlpool system. A 1.2hp pump circulates 50 litres of water mixed with air per minute for a deeply penetrating massage
- // Jacuzzi® Designer whirlpool baths are designed and moulded to hold the jets in the correct position ensuring the water flows along the body delivering a perfect hydromassage
- // Jacuzzi® Designer jets are self closing to prevent any transfer of bathing products into the pipework

- A Jacuzzi® jets have been tested in laboratory conditions and proven to out perform those from other manufacturers
- B Easy to use controls
- C The patented jet system in a Jacuzzi® whirlpool bath delivers a flow of an amazing 50 litres of water per minute mixed with air
- D All Jacuzzi® jets can be moved through 30° to direct the soothing jet right to the place you want it
- E Aquasoul whirlpool bath offers a new silent massage system

Often imitated but never bettered, there is only one genuine Jacuzzi® jet system, delivering very high volumes of water mixed with air to give you the ultimate hydrotherapy experience.

THE SUPREMACY OF THE JACUZZI® JETS: LABORATORY PROOF

The best performing jets from other manufacturers were tested under laboratory conditions and none even came close to the deeply penetrating massaging power of the Jacuzzi® jet, which delivers a water flow of an amazing 50 litres-per-minute mixed with air.

Fluid shapes that embrace the body and inspire the mind. A harmonious blend of creativity and leading edge hydrotherapy technology that goes way beyond mere bubbles.

HOW A GENUINE JACUZZI® WHIRLPOOL BATH WORKS ITS MAGIC

Lie back and you'll instantly feel the unmistakably high flow rates of the Jacuzzi® jets. Warm flowing 'fingers' massaging gently yet deeply, soothing and relaxing those areas that need it most: your lumbar region, legs and hips. Here's what's actually happening:

The warm, pulsating Jacuzzi® jets cause blood vessels in the skin and underlying tissues to dilate. The increased blood flow allows cells to take in more oxygen and nutrition while removing more waste substances. At the same time, surface pores are opened to cleanse the skin of impurities. As a result of this action tired

muscles are relaxed and restored, circulation is improved, the feeling of stiffness in joints is reduced and skin gets better tone, giving an outward glow of vitality.

ONLY THE ORIGINAL GIVES YOU SO MUCH

As many people who buy inferior baths discover to their cost, there's far more to effective hydromassage than mere bubbles. It has taken the innovative genius of Roy Jacuzzi and over thirty years of development by his specialist team to perfect the health-giving hydromassage of a genuine Jacuzzi® whirlpool bath. Relaxing, refreshing, invigorating, there's no other hydromassage experience even remotely like it.

THE JACUZZI® JETS – WHERE THE DIFFERENCE BEGINS

Only a genuine Jacuzzi® whirlpool bath has the unique Jacuzzi® jets. Unlike others that merely produce high pressure, the Jacuzzi® jets massage with high volumes of water mixed with air. Only this principle can reproduce the soothing, deeply penetrating movements of a masseur's fingers by running along the line of your body. Jets that merely press against your skin are much less effective and could even damage delicate tissue.

ADJUST THE JETS TO REACH THE RIGHT SPOT

Every Jacuzzi® jet can be swivelled through 30° to direct its power right to the points you want it.

The flow rates of both water and air can also be adjusted in each individual jet to suit personal preference. Unlike most manufacturers, we build in this flexibility because no two people's hydromassage needs are ever quite the same.

HEALTHY IN EVERY SENSE

The pump, piping and jet system in every Jacuzzi® whirlpool bath is completely self-draining leaving it fresh and clean for the next time it's used. For your health's sake we insist on designing cleanliness into all our products, although not strictly necessary for home use – even the PVC piping we use is food-grade quality. Most Jacuzzi® whirlpool baths also have an optional sanitising system.

MORPHOSIS ALPHA

Cocoon yourself in the ultimate bathing experience. This is no ordinary bath, it's a space to be at one with the free spirit of water, the feel good pleasure of light and the soothing properties of music. The design team at Pininfarina Design have excelled in bringing you a choice of hydromassage sensations and ingenious Cromodream® lighting to suit your mood and create the most glamorous whirlpool experience ever:

Range	Morphosis

Height	57cm

Design Features

Double ended bath // 2 soft headrests // 2 hand grips // integral footrests // front panel // chrome trim kit.

Optional Extras

Underwater light and sanitising system // 4 piece brassware set // end panel.

HEXIS

For those who like their bath a little more generous in size, Hexis is the ideal choice. The interior is perfectly contoured to make the most of the 4 jet Jacuzzi® whirlpool system and allow the 4 rotating back jets to do their work making the most of the additional volume of water.

Range	Hexis
Finish	Chrome, white
Massage Jets	4 jet Jacuzzi® whirlpool system, 4 rotating back jets
Size	180 x 80cm
Height	57cm

Design Features

Soft headrest // chrome trim kit.

Available left or right handed.

Optional Extras

Underwater light and sanitising system with 4 piece brassware set // front panel // end panel.

RETREAT

With its bow fronted design there's no mistaking the Retreat, however it's not just purely aesthetic. The additional water volume means the 5 jet Jacuzzi® whirlpool system can deliver a more powerful experience while you stretch out widthways and relax.

Range	Retreat
Finish	Chrome, white
Massage Jets	5 jet Jacuzzi® whirlpool system, 3 rotating back jets
Size	170 x 85cm
Height	57cm

Design Features	Soft headrest // chrome trim kit // front panel. Available left or right handed.
Optional Extras	Underwater light and sanitising system // 4 piece brassware set // end panel.

ALVOR

The Alvor's unique design incorporates the best of both worlds – a superb 5 jet Jacuzzi® whirlpool system and a spacious showering area within the bathscreen. Ideal for smaller bathrooms or where space is at a premium.

Range	Alvor
Finish	Chrome, white
Massage Jets	5 jet Jacuzzi® whirlpool system
Size	168.5 x 82.3cm
Height	60cm

Design Features	Full size showering area // chrome trim kit // front panel. Available left or right handed.
Optional Extras	Frameless curved glass shower screen // bath overflow filler kit // end panel.

THYA

The traditional footprint of Thya means that it's ideal for smaller bathrooms and will fit into almost any scheme. That doesn't mean that features have been compromised however and with its 5 jet Jacuzzi® whirlpool system and 3 rotating back jets Thya is still capable of delivering a unique hydromassage experience.

THERIS

Simple but stylish, with its soft headrest and 5 jet Jacuzzi® whirlpool system it's sensual hydromassage is the perfect way to end even the toughest of days. Just lie back, close your eyes and drift away.

Range	Thya
Finish	Chrome, white
Massage Jets	5 jet Jacuzzi® whirlpool system 3 rotating back jets
Size	170 x 75cm
Height	57cm

Design Features	Soft headrest // front panel // chrome trim kit. Available left or right handed.

ELIPSA

The Elipsa, influenced by the natural geometric shapes of the ocean, is strikingly elegant and is in perfect harmony with the deeply relaxing hydromassage experience that it provides. Its 6 jet Jacuzzi® whirlpool system and two soft headrests combine to provide bathing pleasure like no other.

Range	Elipsa
Finish	Chrome, white
Massage Jets	6 jet Jacuzzi® whirlpool system
Size	210 x 100cm
Height	57cm

Design Features	2 soft headrests // 4 piece brassware set // double ended bath // chrome trim kit.
Optional Extra	Underwater light and sanitising system.

OPALIA

For many the Opalia, with its sunken style represents the true embodiment of the classic Jacuzzi® whirlpool bath. Imagine yourself and a partner stepping down into the deep warm water of Opalia and letting the 6 jet Jacuzzi® whirlpool system help you unwind. Integral armrests add to the comfort and relaxation that this bath provides.

Range	Opalia
Finish	Chrome, white
Massage Jets	6 jet Jacuzzi® whirlpool system
Size	190 x 110cm
Height	57cm

Design Features	Double ended bath // integral armrests // chrome trim kit.
Optional Extras	Underwater light and sanitising system // 4 piece brassware set.

AQUASOUL OFFSET CORNER

The Aquasoul bath concept is like having four baths in one. A remote control allows you to choose one of four relaxing hydromassages; silence, breathe, renew and dream; from slow, gentle and toning to vigorous and deeply penetrating the choice is yours, at the touch of a button. The built in sanitising system, optional underwater lighting and Technogel® headrest ensure your total well-being.

Range	Aquasoul
Finish	White
Massage Jets	4 Angled Jacuzzi® jets 3 Back massage jets
Technology	Remote control allowing you to choose your hydromassage sequence and operate the sanitising system
Size	150 x 100cm
Height	57cm

Design Features

Aquasoul system // Technogel® headrest – this innovative material moulds itself around the shape of the head and neck guaranteeing personalised comfort // sanitising system.

Optional Extras

Smooth 1 piece panel // water heater and underwater light.

Novello	133 - 135		

NEXUS SUITE

Taking inspiration from geometric shapes the individual pieces that make up the Nexus suite interact with one another to form a connection that is subtly evident especially when viewed from above. Combine the Define bath on page 62 with the slim, aerodynamic lines of the pedestals to create a truly striking and unique suite.

Add Nexus brassware to complete the look.

NEXUS SUITE

Design Features

Each of the basins and bidets include four waste covers in a choice of red, black, white or chrome so all you need do is change your accessories along with your waste cover to give a completely new look to your bathroom.

- A 65cm basin with full pedestal
- B 70cm deck mounted basin with countertop (55cm deck mounted basin also available)
- C 45cm deck mounted vanity basin
- D 60cm basin with semi pedestal
- E 48cm cloakroom basin with bottle trap
- F Wall mounted WC pan and bidet
- G Close coupled WC pan and shrouded cistern
- H Back to wall WC pan and bidet

MORPHOSIS SUITE

Bold, decadent and highly desirable the Morphosis suite is the ultimate design statement. Styled by Pininfarina, one of the world's leading design houses, Morphosis is a celebration of widely curvaceous flowing forms in perfect harmony with the free spirit of water. These futuristic pieces combine to create a style and sense of theatre that's unrivalled by any other bathroom manufacturer today.

Add Morphosis brassware to complete the look.

MORPHOSIS SUITE

Design Features

There are two different Morphosis basins both have the added feature of a subtle ceramic clicker waste cover. The Morphosis pan and bidet are exclusive designs that echo the organic appeal of the basins to perfection, including the integral pan seat which also has quick-release hinges and soft-close features as standard. Both are available in floor standing or wall mounted versions.

- A 80cm basin on high gloss red countertop
- B Wall mounted bidet
- C Wall mounted WC pan
- D 60cm basin on high gloss black countertop
- E 80cm basin on high gloss black countertop
- F Back to wall bidet
- G Back to wall WC pan

**AURA
SUITE**

Sharp linear shapes combine to create the stunningly distinctive Aura concept. It's also just as versatile as it is good looking and boasts a wide array of basin options and the WC and bidet are available in wall mounted or back to wall variants. When combined with one of the Aura whirlpool or non-whirlpool baths the result is simply breathtaking and is destined to become a modern classic.

Add Aura brassware to complete the look.

AURA SUITE

Design Features

The ground breaking Aura design incorporates four different installation possibilities. Your chosen basin can be deck mounted, recessed, semi-recessed or wall mounted. Then, a choice of four sizes of the Aura basin countertop are available. Finally, the option of the under basin storage unit completes the collection.

- A 50cm basin in a semi-recessed installation
- B 70cm basin in a recessed installation with Teak basin shelf
- C 60cm basin in a semi-recessed installation with Teak basin shelf
- D 90cm basin, deck mounted
- E 60cm basin, wall mounted
- F 2x 50cm basins, semi-recessed into the 140cm basin countertop
- G 50cm basin, deck mounted on the 140cm basin countertop, with the under basin storage unit in Teak
- H Back to wall WC pan and bidet (closed coupled pan and cistern also available)
- I Wall mounted WC pan and bidet

ARUBA SUITE

Aruba is a perfect fusion of modern design with a hint of tradition – a combination of contemporary styling with a subtle deco influence that produces bold contours and crisp, squared edges. The chrome overflow is a neat touch that sets Aruba apart.

Add Vendome brassware to create this look.

ARUBA SUITE

Design Features

The unique Aruba chrome overflow shroud makes a distinctive statement in sophisticated pieces. A soft-close seat is available on all WCs as an optional extra.

Aruba is equally at home freestanding or wall mounted in the continental European tradition. The featured brassware is Vendome.

- A 40cm countertop basin
- B 61cm basin and semi pedestal
- C 61cm basin deck mounted
Optional collar available
- D 61cm basin and pedestal
- E 60cm inset vanity basin
- F Wall mounted WC pan
and bidet
- G Freestanding / back to
wall bidet
Close coupled WC pan
and cistern
- H Soft close seat option
- I Back to wall WC pan,
featuring non soft close
seat option

NOVELLO SUITE

Novello, with its unique and distinctive wrap around rim is both stylish and functional. It's a style that's been adopted across all the pieces to create a contemporary and versatile suite thanks to the wide choice of basin types, suitable for most interiors from master bathrooms to cloakrooms.

Add Ohio brassware to create this refreshing look.

NOVELLO SUITE

Design Features

With no fewer than five different basin types, Novello gives you a wide choice of styling options to suit any situation from a master bathroom to a compact cloakroom.

The variety of WC pans and bidets gives you yet more styling options, underlining the exceptional versatility of the Novello design. Novello WC pans are available with the option of soft-close seats.

- A 55cm semi countertop basin
- B 45cm cloakroom basin
- C 45cm cloakroom basin (with towel rail)
- D 45cm cloakroom basin and cloakroom semi pedestal
- E 50cm basin and semi pedestal
- F 44cm countertop basin
- G 50cm basin
- H Closed coupled WC pan and cistern
- I Freestanding / back to wall WC pan and bidet
- J Wall mounted WC pan and bidet
- K 60cm basin and pedestal

MEDINA SUITE

Elegance, character and the ability to blend perfectly with many of the baths in the range set the Medina suite apart. With its distinctive moulded-in overflow double rolled rim and soft curves Medina will add a touch of class to any bathroom.

MEDINA SUITE

Design Features

Medina's elegant moulded-in overflow cover is typical of the hand-crafted attention to detail you expect from a Jacuzzi® bathroom suite.

With pieces available freestanding or back to wall, the softly curving form of Medina can take on distinctively different characters to match your needs.

- A 60cm semi countertop basin
- B 45cm cloakroom basin
- C 60cm basin and pedestal
- D 65cm basin and semi pedestal
- E Back to wall WC pan freestanding / back to wall bidet
- F Close coupled WC pan and cistern

SANCTUARY SUITE

Sanctuary is both distinctive and eye catching, the slimline rim profile adds to the contemporary look and provides a large inner basin area. The same principles have been applied to the WC pan and bidet to create a suite that transcends fashion and will remain a design icon.

Add Tube brassware to create the ultimate contemporary look and feel to your bathroom.

SANCTUARY SUITE

Design Features

Clean, simple lines based on a softly curved shape have all the hallmarks of classic design. With a choice of inset, semi countertop, vanity and conventional basins there is an option to suit any installation requirement.

Soft-close seat options are available on all WC's in the Sanctuary range.

- A 55cm basin and pedestal
- B 38cm countertop basin
- C 45cm cloakroom basin
- D 55cm basin and semi pedestal
- E 54.5cm inset vanity basin
- F 55cm countertop basin (also available in 70cm)
- G 55cm semi countertop basin
- H Back to wall WC pan and bidet
- I 45cm cloakroom basin and cloakroom semi pedestal
- J Wall mounted WC pan and bidet
- K Close coupled WC pan and cistern freestanding / back to wall bidet

AMARI SUITE

Stylish, but simple, full of character but understated. Amari with its soft rounded styling cues and top surface detail is the ideal way to create a European design feel to your bathroom and distinguish it from any other.

Add Kaya brassware to create this perfect look with a strong European design influence.

AMARI SUITE

Design Features

The countertop basin and back to wall pieces are further evidence of Amari's strong European design influence.

- A 58cm semi countertop basin
- B 58cm basin and pedestal
- C Close coupled WC pan and cistern
45cm cloakroom basin
- D 58cm basin and semi pedestal
- E Freestanding / back to wall bidet,
back to wall WC pan

NATURA SUITE

The softly rounded style of Natura is easy on the eye and delivers a design statement without trying too hard. Graceful, simple it lends itself to any contemporary environment throughout the home from master bathrooms to en-suites and cloakrooms effortlessly.

Add Kaya brassware to create this stylish but understated look.

NATURA SUITE

Design Features

The softly rounded style of Natura makes it ideal for use throughout the home – from full suite to en-suite and even into the cloakroom.

Graceful and resplendent in its simplicity, the Natura suite stands out in whatever combination you choose.

- A Close coupled WC pan and cistern
- B Freestanding bidet
- C 58cm semi countertop basin
back to wall WC pan
- D 58cm basin and pedestal
- E 57cm inset vanity basin

Unique, beautiful to look at, smooth and efficient to the touch, this is beauty that is more than skin deep and will complement your Jacuzzi® bathroom perfectly.

Every piece of brassware in our latest range is crafted and protected by a heavy coating of chrome that will keep its sparkling good looks year after year.

BRASSWARE

Estio	154 - 154	Vendome	162 - 162
Kanya Black	155 - 155	Kaya	163 - 163

- F Basin wall mounted mixer

- A Basin monobloc mixer
- B Bidet monobloc mixer
- C 3 hole basin mixer
- D Basin wall mounted mixer
5 hole bath/shower mixer
(not shown)

KANYA
BLACK

For those looking for something really different Kanya black is the last word in ultra cool urban chic. With its sleek lines and black anodised finish it's sure to add a stunning contrast on many of our contemporary suites.

AURA

The linear lines and geometric shapes of Aura brassware complement the Aura suite to perfection. Pure in form but high on function and performance these pieces exude contemporary style.

- A Basin monobloc mixer
- B Bidet monobloc mixer
- C 4 hole bath/shower mixer
- D 3 hole basin mixer
- E 2 hole bath overflow filler kit
- F 3 hole wall mounted mixer

MORPHOSIS

This contemporary brassware range has been designed to work seamlessly with the impressive range of basins and bidets in the Morphosis bathroom range. Gleaming chrome and flowing shapes harmonise perfectly but never intrude.

- A+B Tall basin monobloc mixer
- C Bidet monobloc mixer
- D 3 hole wall mounted basin mixer
- 4 hole bath/shower mixer (round - not shown)
- 4 hole bath/shower mixer (angled - not shown)

NEXUS

Contemporary and stunning this brassware set is the perfect choice for the Nexus bathroom suite, however it will look equally at home with any of the Jacuzzi® bathroom suites.

- A Basin monobloc mixer
- B Bidet monobloc mixer
- C Bath/shower floor mounted mixer
- D Basin tall monobloc mixer
- E Bath/shower wall mounted mixer
- F 4 hole bath/shower mixer
- G Basin wall mounted mixer

- A Basin monobloc mixer
- B Bidet monobloc mixer
- C 3 hole basin mixer
- D 3 hole bath mixer
- E 5 hole bath/shower mixer

VANORA

With its geometric base shape Vanora stands out from the crowd for all the right reasons. Designed to enhance the classic styling of the Medina suite, this brassware will look equally at home on most Jacuzzi® bathroom suites.

KANYA CHROME

Kanya chrome has the same stylish good looks as Kanya black but with a gleaming chrome finish, its sleek lines are sure to make a statement and add the finishing touch to any bathroom suite.

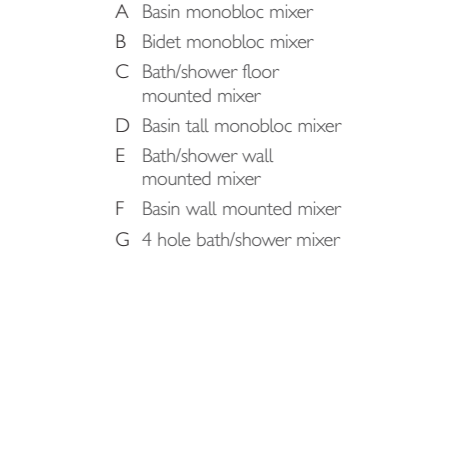

- A Basin monobloc mixer
- B Bidet monobloc mixer
- C 3 hole basin mixer
- D Basin wall mounted mixer
5 hole bath/shower mixer
(not shown)

ARINA

Geometric lines link with soft curves to create a sleek modern look. Arina is the perfect choice when minimalist design is the order of the day.

- A Basin monobloc mixer
- B Bidet monobloc mixer
- C Bath/shower floor mounted mixer
- D Basin tall monobloc mixer
- E Bath/shower wall mounted mixer
- F Basin wall mounted mixer
- G 4 hole bath/shower mixer

VENDOME

This sophisticated brassware with its column style taps is perfectly balanced and the ideal choice when it comes to stylish unfussy but beautifully functional design.

- A Basin monobloc mixer
- B Bidet monobloc mixer
- C Basin tall monobloc mixer
- D Bath single lever overflow filler kit
- E Bath/shower wall mounted mixer

- A Basin monobloc mixer
- B Bidet monobloc mixer
- C Bath/shower wall mounted mixer
- D Thermostatic shower wall mounted
- E 2 hole bath overflow filler

KAYA

The smooth ergonomics of Kaya provide a wonderful combination of distinctive looks and superb efficiency that will look at home in any bathroom setting.

SHOWERING REI

A

B

A Shower column orange
B Shower column wisteria

Sleek, contemporary and with a dash of colour Rei shower columns perform superbly thanks to the finest technology. They offer a choice of functionality including invigorating showering via a fixed raindrop head, wand hand shower and a vertical hydromassage with four Jacuzzi® jets to revitalise aching muscles. A choice of two colour options allow you to create a distinctive look in any bathroom.

SHOWERING NEXUS

Whether you're looking for sleek and sophisticated, or dramatic and innovative, the Nexus showering range has a shower system to suit your needs. Designer shower heads offer a drenching raindrop shower experience, whilst the slimline column and jets provide an invigorating back massage.

A Designer column and jets (excludes shower valve)

B Shower handset/riser rail*

C Chrome shower head

D Black shower head

E Designer shower head white

F Diverter

G Designer shower head black

H Thermostatic with diverter

I Shower arm

J Body jet

K Water outlet

L Thermostatic 3 way valve

* Shown with 'K' water outlet

SHOWERING KANYA

For the ultimate in showering, look no further than Kanya. The state-of-the-art shower column and jet panels feature an overhead shower and two panels with body jets for a completely invigorating experience. If you prefer something a little less dramatic, slimline riser rails combine with overhead raindrop shower heads for a sophisticated streamline look.

- A Shower column and jet panels
 - B Water outlet
 - C Body jet
 - D Shower column with valve
 - E Shower riser rail and hand set *
 - F Shower head chrome
 - G Shower head black
 - H Shower column headset/handset

 - J Single thermostatic with Diverter
 - K Shower arm
 - L Thermostatic 3 way valve
 - M Thermostatic with Diverter
- Diverter (not shown)
* Shown with water outlet

SHOWERING ARINA

Arina is the perfect choice for those looking for simple, minimalist design and perfect functionality. Large adjustable overhead shower heads combine with sleek and stylish showering wands and adjustable rails to create a look that will complement many of our contemporary suites and make a statement in any bathroom.

- A Shower arm
- B Shower handset/riser rail
- C Shower head and arm
- D Shower head black
- E Thermostatic with diverter
- F Body jet
- G Water outlet

THERMOSTATIC MIXING VALVES

- A Bath valve 22mm
- B Basin valve 15mm

Once you have chosen your brassware, give yourself peace of mind with the addition of a thermostatic mixing valve. Designed to fit your bath or basin, the valve will ensure that hot water is delivered at a temperature that will not scald, particularly important when used by the very young or elderly.

The natural beauty of wood combined with glass, porcelain and chrome brought together in an infinite number of combinations to create wonderfully versatile bathroom furniture that will complement any interior.

Our bathroom furniture range is a celebration of contemporary design and genuinely useful features that will delight every time you use them.

FURNITURE

Countertop
Basin Furniture 174 - 175
Jacuzzi®
Wenge Furniture 176 - 177

COUNTERTOP BASIN FURNITURE

A range of contemporary countertops and storage options designed to complement our range of suites and sanitaryware perfectly.

A Gloss red countertop shown with Morphosis 80cm basin (countertop sizes also available: 100cm and 140cm)

B Gloss black countertop shown with Nexus 70cm basin (countertop sizes also available: 100cm and 140cm)

CAN BE A GOOD THING

THE JACUZZI® DESIGNER RANGE

THE JACUZZI® DESIGNER RANGE

We hope you have enjoyed browsing through this brochure and have found the inspiration to create your ideal bathroom retreat – it's your special place – make the most of it.

As we're sure you will appreciate a brochure can only really give a flavour of our products – touch and feel are equally important and Jacuzzi® products are even more stunningly beautiful when experienced first hand. That's why we highly recommend that you visit your local Jacuzzi® Bathroom Specialist, who will not only assist with planning your bathroom, but will advise on all the practical requirements for your choice of bathroom.

It's also worth noting that once you have chosen your bathroom you need to consider the practicalities. Many of our showers and whirlpool baths are high performance items that have specific water pressure requirements between 1.5 and 2 bar. Jacuzzi® high pressure taps, Twins, J-Towers and Essteam units may require the installation of a pump and in the case of steam cabinets, a 'negative head' style pump is required.

When mixing water and electricity in a bathroom it is important to seek professional advice with regards to current regulations. For installation of our whirlpool baths we specify hot and cold water supply of balanced pressures, standard 13amp mains using 2.5mm core cable, unless installing the baths with built-in heaters which require 20amp mains using 4mm core cable.

You can rest assured that all Jacuzzi® products have been manufactured to the highest standards and as you would expect, all the Jacuzzi® bathroom products carry excellent guarantees.

To find your nearest showroom please visit our website: www.jacuzzi.co.uk

Once you have purchased your perfect bathroom, please help the environment by passing this brochure to a friend or relative who may be interested.

All descriptions, specifications and particulars etc contained in this brochure are intended merely to represent a general idea of the goods contained herein and none of these form part of any contract or give rise to any independent collateral liability upon the company. Where we use wood in our products we must point out that this is a natural material and any inconsistencies in the finish or changes over time are considered part of its natural beauty. Our policy is one of continuous improvement and we reserve the right to change specifications and designs at any time without notice. All colours in this brochure are as accurate as the printing process will allow.

JACUZZI® FOR YOU RANGE

A unique range of products designed to help you take care of yourself as well as your Jacuzzi® bathroom.

Jacuzzi® ForYou is a unique range of products specially formulated to help you make the most of your Jacuzzi® bathroom products as well as taking care of yourself. From essential oils and essences to detergents and natural solutions, the Jacuzzi® for You range helps care for your Jacuzzi® products ensuring years of trouble free service.

JACUZZI® WELL-BEING RANGE

The well being range of products offers a series of aromatic essences created to satisfy the needs of the most demanding hydrotherapy lover or steam obsessive. From purifying to regenerating, the Jacuzzi® ForYou range has a product for you.

BATHROOM CLEANING RANGE

Jacuzzi® ForYou's range of cleaning products provides high-performance detergents and natural solutions to help maintain your bathroom products in perfect condition.

Our detergents are professional products that have been specially formulated to ensure the most effective cleaning action whilst the natural solutions offer an alternative for those who choose a more natural way of life.

JACUZZI® ACCESSORIES RANGE

A range of luxury Jacuzzi® branded accessories including bathrobes are also available – the perfect complement to your Jacuzzi® bathroom.

GETTING THE MOST FROM YOUR BATHROOM EXPERIENCE

Bathing is the calming way to relax in today's stressful environment. It is a soothing way to start a new day or just the relaxation you need to send you off to bed of an evening. Using bathing oils from the Jacuzzi® ForYou range ensures the soothing of aching muscles and tense nerves as well as softening the skin and ensuring a glowing complexion. Below are our top tips to ensure you maximise your bathing experience.

- // Create a mini haven in your bathroom. It can be the entire room or just in the corner of your room.
- // Candlelight will add another dimension to your atmosphere of relaxation. Select candles made from natural waxes, such as soy or beeswax, scented with pure essential oils or naturally derived fragrances.
- // Consider the scents for the desired mood, light an aromatherapy candle (Lavender to promote relaxation and Rosemary, Mint or Citrus to invigorate).
- // Turn on your favourite relaxing music to create a tranquil and stress free environment.

Then with the scene set, just lie back, relax and let the worries of the day fade away.
