SILVERDALE

UK Manufacturers of Luxury Ceramic Brands

Craftsmanship no machine can equal

Silverdale is one of the few remaining Bathroom Ceramic factories in the UK today and we continue to manufacture all that we sell at our plant in the heart of the English potteries.

Silverdale Contemporary Excellence

Silverdale remains a bench cast manufacturing plant, in that it still produces premium ceramic by hand, in most cases because it simply can't be made any other way. The skills our potters use have been passed down from previous generations through apprenticeship programmes and rigorous training, something that continues at the company today, helping to secure the future of our luxury ranges.

We know the quality of our ceramic is the best in the world because our customers and competitors tell us so. It's truly fascinating to see a potter create one of our ceramic pieces for the bathroom, the skillset and judgement is something no machine, computer or competitor can equal.

SILVERDALE

Pouring the slip

De moulding the pans

Each potter proudly adds his name stamp.

Glazing booth

It all starts with the raw materials China Clay, Ball Clay, Feldspar and Silica Sand all sourced from the UK and mixed together to create a homogenous casting slip, the density and fluid properties of which are critical and being a natural material, ever changeable.

This mix is sieved and as slip, poured into plaster of Paris moulds, individually made for each piece, which through a capillary action, draws the moisture out of the clay. Each mould lasts just 60 casts before it too has to be re-made. After a few hours in the mould the potters have to de-mould the item and let it carefully dry for up to five days in a controlled temperature environment, before it is ready for hand glazing and firing in the kiln.

Due to the complexity and detail of the Silverdale product, each mould is created from multiple pieces, this Windsor Pan mould (left) is assembled using 12 separate individual mould pieces, whilst our most complex wc pan uses 28 separate parts.

The skilled glazers ensure that all exposed edges contain glaze to give the product its stunning sheen. They need to spray without overlap, that's much harder than it looks, as mistakes can't be seen until the product comes out of the finished kiln. In total each piece is sprayed with 3 layers of our finest quality glaze giving it a depth of shine and finish we call Pureglaze™.

Each piece is then loaded on a cart, positioned to deliver the best possible result and driven into the kiln. Each kiln fires the pot at 1215 °C for the initial firing and once more at 800 °C for firing on the branding logo to last a lifetime on each item.

At each stage in the process quality checks are made and any item not reaching our stringent standards is recycled. As a final test, every WC is 100% vacuum checked to ensure it's completely watertight and ready for installation and use.

Silverdale manufacture all bathroom pieces in Vitreous china, the finest clay, which not only gives the best quality finish, but once fired doesn't absorb any water, ensuring all Silverdale products remain hygienic and bacteria free for life.

SILVERDALE GUARANTEE – LASTS A LIFETIME

We are so confident that our quality will last a lifetime that we protect your investment with a lifetime guarantee on all ceramic pieces. This comprehensive guarantee covers the products against the event of any material or manufacturing defect. The guarantee is just one of our commitments to total quality, assuring that your Silverdale product will give you the highest level of performance and lasting good looks for years to come.

Silverdale Ceramic Collection

Contemporary Excellence

Silverdale offers you a choice of eight ceramic bathroom collections in bright white with a selection in black gloss too, all available in our Pureglaze™ finish. We have a style of pottery to suit any contemporary or classical taste and coupled with its sister brand, B C Sanitan offering Traditional Excellence, we have a style to suit any home.

Whilst specialists in the production of quality ceramic products, the Silverdale collection also offers complementary Baths and Brassware developed with like minded quality European supply partners.

All our products are sold exclusively through specialist bathroom retailers in the UK and throughout the world, who are trained to understand the technical nature of a bathroom sale enabling you to buy with confidence.

If you have any questions on the Silverdale range of products or wish to know where you can purchase them please call on (0)1782-717175 or visit our website at www.silverdalebathrooms.co.uk. Scan the QR code to take you straight there.

Windsor

Windsor has pushed all technical boundaries of vitrified china production and the result is simply beautiful. Vitrified china is similar to the material used for china tea cups, it is the finest quality clay and results in the purest finish, but getting that china to remain in shape with pieces as large as Windsor is pure craftsmanship.

The result is a seamless product achieved using multiple mould casings and a unique double box cavity construction that ensures no sinking or visible deformation within the kiln. Windsor is a non-symmetrical design in a solid yet fluid shape created in conjunction with one of the worlds most famous design houses in Italy – Pininfarina. It was a challenge that no one thought possible to make and we made it happen at Silverdale Bathrooms.

Luxury Ceramics Made in the UK

Windsor Collection

Each piece of Windsor is made in our Staffordshire factory and incorporates our Pureglaze™ finish. Our ceramics are glazed to the highest standards by hand allowing us to ensure an evenness and effective coverage no machine can match.... There is simply no visible area left unglazed. The result has to be seen and it's only available in specialist bathroom retailers.

SILVERDALE

All Windsor basins come complete with a matching ceramic clicker waste and are designed to suit brassware that is worktop or wall mounted.

a: 80cm countertop basin black	SILW1680BLK	£650.00
b: 60cm countertop basin	SILW1660	£498.00
60cm countertop basin black (not pictured)	SILW1660BLK	£559.00
c: 80cm countertop basin	SILW1680	£590.00
d: Basin detailing soap dish and ceramic clicker waste Basin clicker waste also available in chrome	JACUNI100	£ 62.00

Windsor Collection

We've been making toilets in our factory in Silverdale for over 30 years and they are the most difficult piece a potter can produce for the bathroom. It's a large piece of clay to remain stable in a kiln, the channels have to ensure all water drains away and all areas need to be fully glazed, but we've definitely mastered it. In Windsor we have two options, what we call floor mounted, so it effectively secures to the floor and wall mounted which hangs by the use of a hanging frame behind the wall or within furniture. Both require a hidden cistern see page 72 for our selection.

e

SILVERDALE

The Windsor bidet comes with one hole for your choice of bidet mixer tap.

e:	Wall mounted WC pan	SILW1101	£634.00
	Toilet seat with soft close feature	SILW1501	£220.00
f:	Back to wall WC pan	SILW1102	£505.00
	Toilet seat with soft close feature	SILW1501	£220.00
g:	Wall mounted bidet *	SILW1401	£655.00
h:	Back to wall bidet *	SILW1400	£599.00

*One tap hole.

Oxbridge

Oxbridge carries many truly unique design features. Its tapered basin edges stretch almost to a point, its pedestal narrows to an elegant base and it appears when placed together that the basin and pedestal are completely seamless.

The WC Pan is manufactured using multi-piece moulds and craftsmen to create the seamless step to follow the basin and pedestal design and appear to exaggerate the size of the more than ample pan and seat. It is manufactured in the finest vitrified china and made in the heart of the English potteries and finished with Pureglaze™ our hand glazed stamp of quality.

Luxury Ceramics Made in the UK

Oxbridge Collection

One of our most recent additions, Oxbridge offers a wider choice of ceramic pieces enabling you to create a cohesive look throughout all your bathing rooms in your home. Each piece is created from numerous moulds allowing it to stay perfectly in place when fired in our kilns, the result is a finish not easily achieved in such fine vitrified china.

SILVERDALE

The main basin is available with a 'full pedestal' down to the floor or a shorter 'semi-pedestal' option. The elliptical countertop basin is a great alternative to a standard basin and pedestal, especially when using furniture storage within the room, and it is designed to suit deck or wall mounted brassware. All basins in Oxbridge come complete with a chrome clicker waste

a:	63cm pedestal basin *	SILOX660	£388.00
	Full tall pedestal	SILOX300	£211.00
b:	63cm pedestal basin *	SILOX660	£388.00
	Semi pedestal	SILOX301	£200.00
c:	44cm unermount basin	SILOX644	£205.00
	48cm undermount basin (not pictured)	SILOX648	£241.00
d:	60cm countertop basin	SILOX601	£269.00
e:	60cm countertop basin detailing chrome clicker waste		
f:	46cm cloakroom basin *	SILOX645	£243.00
	Cloakroom semi pedestal	SILOX303	£172.00

*One tap hole.

Oxbridge Collection

Oxbridge gives you a choice of toilets and bidets too. A close coupled toilet is where the cistern sits on top of the pan, or if you have furniture to house a cistern select the back to wall pan instead. The third option is the wall hung pan, which requires the need to house the cistern in a wall or furniture and a framework on which to hang the pan or bidet. See page 72 to select which one will work best for you.

SILVERDALE

g:	Wall mounted WC pan	SILOX101	£398.00

	Toilet seat with soft close feature	SILOX501	£241.00
	Back to wall bidet *	SILOX400	£493.00

*One tap hole.

Tate

The Tate range has a striking geometric design whose components subtly interlock, very evident when viewed from above. The design flows out from the key basin and pedestal, the pedestal being our most challenging creation, its angles so sharp and proportions so narrow at its base. It is hand made using a multi-mould casing and a unique double box cavity construction that ensures no sinking or deformation on the piece.

The collection is complemented with a patented waste in basins and bidets that come in a range of colours and, as with all our pieces manufactured in our UK factory, it is finished with Pureglaze™ our hand glazed stamp of quality.

Luxury Ceramics Made in the UK

Tate Collection

The basin options in the Tate range are vast, offering great flexibility in bathroom design. We have options for basins to sit on full or semi pedestals or to mount onto furniture with our countertop designs, the latter requiring deck or wall-mounted brassware. Whichever you choose each basin and bidet come with waste covers in a choice of four colours; red, black, white or chrome, which you can change to suit your décor.

SILVERDALE

Tate looks amazing in black ceramic too and is available as a countertop option in a couple of sizes. All basins and bidets include waste and 4 colour inserts. If you decide on a countertop basin check if you need a bottle trap to hide the plumbing and an extended pop up waste, as shown on image (e).

Tate Collection

The Tate Close Coupled Pan & Cistern are a great example of hand cast British ceramic quality; a perfectly aligned twinned piece with sharp radius corners, engineered to fit perfectly together with precision casting. The range of WC Pans and Bidets in Tate allows for both wall hung and floor mounted installations. Don't miss out on coupling the WC Pan with a bidet, they were designed to go together in this range as mirror opposites.

SILVERDALE

Each Bidet and Basin in Tate includes waste covers in a choice of four colours; Red, black, white and chrome.

g:	Wall mounted WC pan	SILTA101	£452.00

	Toilet seat with soft close feature	SILTA501	£204.00
	Back to wall bidet *	SILTA400	£487.00

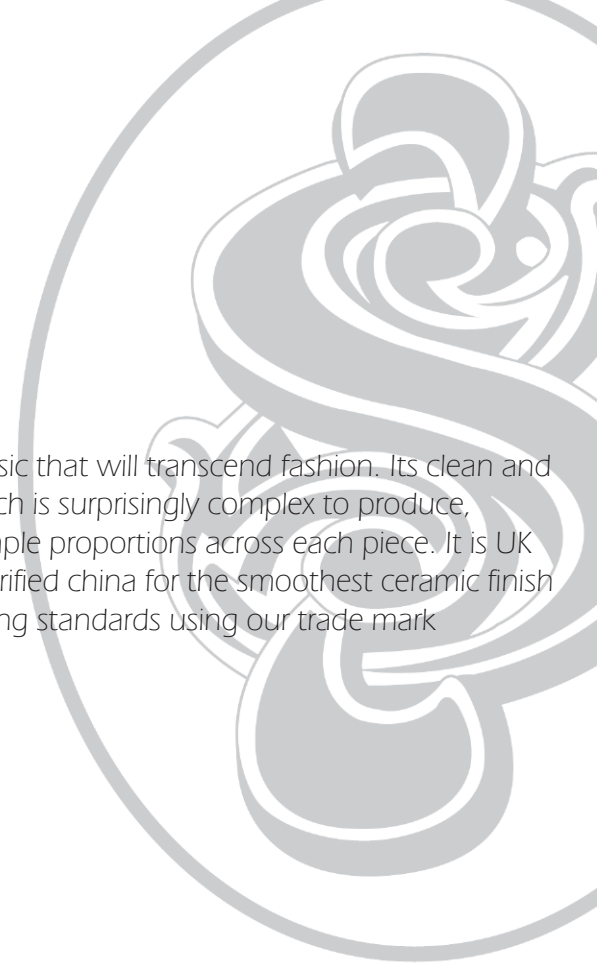

*One tap hole. For a detailed explanation of toilet and cistern options and terms see page 72.

Ascot

Ascot is simply a modern classic that will transcend fashion. Its clean and slimline rim on all pieces, which is surprisingly complex to produce, results in an inner bowl of ample proportions across each piece. It is UK manufactured in the finest vitrified china for the smoothest ceramic finish and glazed by hand to exacting standards using our trade mark Pureglaze™ technique.

Luxury Ceramics Made in the UK

Ascot Collection

Ascot offers ultra fine basin rims and large deep bowls with seamless styling. Its perpendicular basins and wall fittings are engineered to a perfect 90 degrees. Whether you want a basin with pedestal or to sit on or in furniture, or you want worktop, ceramic or wall mounted brassware, there's lots of options to choose from in Ascot.

SILVERDALE

The quality of ceramic and finish on any Silverdale basin is world class. Make sure you visit your local Silverdale retailer to compare before you buy. Remember to order your waste separately it is not included with the Ascot basins.

* For sizing on all pieces within Ascot see page 84.

Ascot Collection

All toilet seats within the Silverdale collection are designed and created specifically to suit the shape of pan and are available with a standard or soft close feature. What timeless luxury to never hear the sound of a toilet seat closing again, even when children are visiting your bathroom.

SILVERDALE

Select from a number of toilet options. A close coupled toilet is where the cistern sits on the toilet, a back to wall option is where the pan sits on the floor and backs onto furniture which holds an internal cistern. Finally a wall hung pan requires a hanging bracket fitted behind the wall or into furniture, see page 72 for details.

	Toilet seat without soft close feature	SILAS500	£123.00

*No tap hole.

Henley

Creating a contemporary look in the bathroom doesn't have to cost the earth. Henley not only represents value for money, but it is versatile too, offering a great choice of ceramic pieces. This squarer block design is very popular, especially the WC pan which is without doubt the best selling pan in the Silverdale collection. With large flat surfaces, it's great to keep clean and really shows off the lustre of its 3 coats of Pureglaze™ finish.

Luxury Ceramics Made in the UK

Henley Collection

There are eight basin options in the Henley collection, all available in Pureglaze™ white but with a few also available in our stunning black finish. Consider if you want your basin matched with a full or semi pedestal or perhaps finished with a contemporary bottle trap (see (c) below), which finishes off the pipework tidily under the basin. Other options include basins inset into furniture or worktops, semi recessed into furniture or physically sat on the furniture; we refer to these as Countertop basins.

SILVERDALE

Remember to order your basin waste, they don't come with the Henley basins.

a: 55cm basin *	SILHE655	£203.00
Full tall pedestal 70cm	SILUNI305	£ 84.00

	(R) SILHE615	£129.00

*One tap hole.

Henley Collection

The square WC pan in Henley is a complex piece to manufacture in vitrified china. We make it by hand using a multi-mould casing. It is a solid cast construction that ensures no sinking or visible deformation creating perfectly smooth pans with both WC Pan & Cistern perfectly aligned and an engineered fit achieved with precision casting. The shrouded Henley WC pan looks stunningly proportioned and is a great alternative to our standard cistern size.

SILVERDALE

Ask your retailer which WC Pan will work best in your bathroom. The wall mounted WC pans and bidet look great and are very practical allowing for cleaning underneath, but you'll need an internal flushing cistern and wall hanging frame to make it work, see page 72.

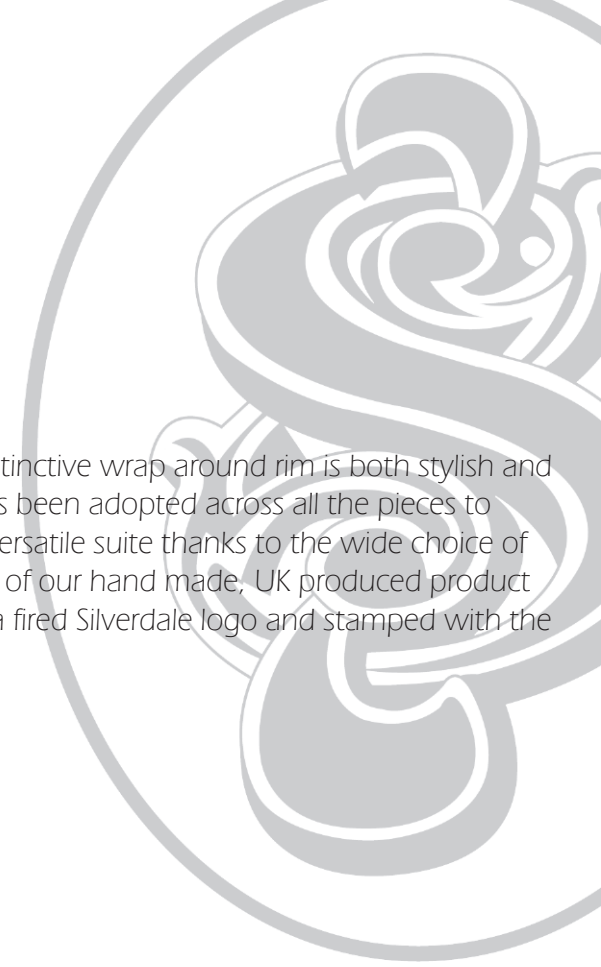

g:	Back to wall WC pan	SILHE102	£335.00

Esher

Esher, with its unique and distinctive wrap around rim is both stylish and functional. It's a style that has been adopted across all the pieces to create a contemporary and versatile suite thanks to the wide choice of basin types. We are so proud of our hand made, UK produced product that each piece comes with a fired Silverdale logo and stamped with the casters name.

Luxury Ceramics Made in the UK

Esher Collection

With no fewer than 6 different basin types Esher gives you a wide choice of styling options to suit any situation from a master bathroom to a compact cloakroom. Whether you want a basin with pedestal or sat on or in furniture or you want deck, ceramic or wall mounted brassware, there's lots of options to choose from in Esher.

SILVERDALE

Remember to order your basin waste, they don't come with the Esher basins.

Richmond

Richmond has the widest range of pieces, making it our most versatile collection. It's grown with time as its popularity has increased and its no wonder with its simply beautiful asymmetric design. Clean and fresh in white and transforming to look almost art deco in black, both made from quality vitrified china offering an unsurpassed depth of glaze and colour.

Luxury Ceramics Made in the UK

Richmond Collection

For a taste of Richmond's versatility, consider your basin options alone. You have a range of sizes to choose from including models for pedestal, semi-pedestal or countertop mounting. There are further designs for cloakrooms, ensuites or other areas where space is at a premium. Silverdale also offer two sizes of pedestal in the Richmond collection for choice and comfort.

Richmond Collection

Richmond offers a few toilet options. Select from a close coupled pan and cistern which comes complete with cistern flushing internals pre-fitted within the ceramic cistern. If you want to hide your cistern internals in the wall or furniture, you can opt for a pan that fits snug to the wall, our 'back to wall' or 'wall mounted' options are our shortest projection pans at only 57 and 50cm respectively. Both these latter options need internal cisterns purchasing separately and in the case of a wall hung pan or bidet, a hanging frame see page 72.

Thames

Thames is an incredibly versatile design, its gently rounding form looking at home in a contemporary or classic bathroom setting. Thames is the starting price point of the Silverdale collection but comes with no less a choice in its variety of pieces. Its deep rim flows throughout all items within the collection pulling the design together and its ample basin size and subtle soap area makes it a popular choice.

Luxury Ceramics Made in the UK

Thames Collection

The rounded, ample sized basins within the Thames collection really show off the depth of the Pureglaze™ finish. Available in white as all Silverdale pieces, each basin is branded with the Silverdale logo and the waste overflow complemented with a chrome ring.

SILVERDALE

The Thames collection also offers two sizes of pedestal, a great option for the taller bather. Remember to order your basin waste, they don't come with the Thames basin collection.

a:	61 cm basin (one tap hole) Full pedestal 67cm * 61 cm basin (three tap hole, not pictured) Full tall pedestal 70cm *(not pictured)	SILTH661 SILUNI300 SILTH663 SILUNI305	£125.00 £ 68.00 £125.00 £ 84.00

	Basin clicker waste in chrome Universal basin bottle trap in chrome	JACUNI100 UNTACBBSCHR	£ 62.00 £ 58.00

* For sizing on all pieces within Thames see page 92.

Thames Collection

Each pan in the Thames collection is created in a box rim finish to deliver a more effective flush. Choose from a standard close coupled toilet or for a more contemporary look, try fixing the WC pan and bidet directly to furniture or a wall.

SILVERDALE

To try a wall mounted toilet or bidet see page 72 for our range of hanging frames.

Basin Collection

The basin is often the first piece of ceramic you choose for your new bathroom, ensuite or cloakroom and we have plenty to choose from at Silverdale. All hand made in our factory in Staffordshire to the highest possible standards and finished with Pureglaze™ treatment resulting in an unbeatable lustre and depth of finish. All basins come as standard with the Silverdale logo, an unrivalled stamp of quality and completed with a stamp from the individual potter that made the piece.

Brand your basin

If you want to have your basin fired with a logo of your choice, we can do that too. It may be you want a range of basins to refurbish your hotel, bar or even your own family crest. All our fired ceramic pieces have a lifetime guarantee, so your chosen logo will shine for many years to come. See some examples below, all it takes is a little imagination.

TILEABLE BATH PANELS

Try our pre-formed easy finish tileable bath panels, to create a more integral and luxury feature in your bathroom. Our panels are pre-formed and easy to cut down for any size of bath and our lipped panels help create a ledge around the bath. All panels are fully waterproof and stable in a moist environment and designed to be easy to install. What's more they remove easily too as they come with adjustable legs, for quick and easy access under the bath if ever required.

Guidance

There is quite a bit to take into account when buying a new Bathroom and as it's not a purchase you make everyday, we have tried to give you some guidance on the detail you'll need.

Toilet Choice

Your big decision is what type of toilet you require for the room:

Close Coupled Toilet

The ceramic cistern, holding the internal flushing mechanism, is fitted on top of the WC Pan. Traditionally most toilets in UK homes are this option. The WC Pan is bolted to the floor and the Ceramic cistern is bolted to the wall.

Back to Wall WC Pan

When using furniture in the bathroom a back to wall pan becomes a more obvious choice, the internal flushing cistern is hidden within the furniture which, like a ceramic cistern with lid will also allow access to it in case of any problems. Here the WC Pan is bolted to the floor when installed.

Wall Mounted WC Pan

This option is the fastest growing trend, allowing cleaning under the pan and unbroken floor decoration. Like the 'back to wall' option, the plastic internal flushing cistern is held in furniture or behind a stud wall, and the pan is mounted to a hanging

frame as seen here. This frame is also used if you require a wall mounted bidet to match the toilet. See across for more details on how the frames work and over the page for sizes.

Quality Toilet Seats

We take a great deal of time creating a toilet seat to exactly match each WC Pan, both in the quality, of materials, the subtleties of design and exact colour matching to the Silverdale Collection. All our luxury seats are heavyweight and fully wrapped to the pan, with a German engineered and patented soft close mechanism that is concealed within the seat. All come with a comprehensive 2 year guarantee on the materials a full 10 year guarantee on the soft close mechanism.

All seats come with a simple clip off mechanism for easy cleaning.

All seats offer a smooth action that doesn't bounce or shake and a silent close that can be forced by "little hands" without damage. Fitting is easy too and allows for a 15mm adjustment.

Water saving and Environmentally Friendly

All our Silverdale toilets offer a dual flushing cistern to reduce the amount of water required to flush the pan. Traditionally toilets used around 12 litres of water per flush, but all our Silverdale pans have been designed to reduce the amount of water required to fully clean the pan and come with a split 4 and 6 litre flush option.

Wastes

All basins within the Windsor, Oxbridge and Tate ranges come complete with wastes, The Windsor and Oxford with ceramic clicker wastes and the Tate with a pop up waste, with a magnetic colour inset which you can change to suit your bathroom décor. For all other basins you need to decide whether to buy a tap that comes complete with a pop up waste, usually controlled by a rod coming out of the back of the tap, or to purchase our clicker waste.

Pop up waste controlled with rod behind the tap.

Clicker Waste Chrome
JACUNI100 £62.00

Basin pop up waste
UNTACPBSCHR £90.00

The most popular bath wastes to consider are either a standard plug and chain or a bath pop up waste, the latter of which is operated by turning the overflow so that the plug lifts in or out of position.

Bath pop up waste
UNTACPBTCR £64.00

Bottle Traps

Designed to hide unsightly pipes under the sink, the bottle trap can be used instead of a basin pedestal.

Contemporary bottle trap chrome
JACUNI200 £129.00

Universal bottle trap chrome
UNTACBBSCHR £58.00

Toilet Frame

We supply a premium range of frame systems for our wall mounted toilets and bidets, specifically designed for the UK market and suiting most applications. They are all weight tested to 400kg, have excellent sound deadening properties, have adjustable height soil pipe clamps and provide easy access and service.

Silverdale Lifetime Reassurance

We are immensely proud of the product we manufacture at Silverdale Bathrooms. It is manufactured by hand and checked by many to ensure that the quality passes our exacting standards and that it reaches you in great condition. We are confident that it will give you many years of pleasure and service. In the unlikely event that you experience any defects or are unhappy in any way, we guarantee to replace the product free of charge.

Our lifetime guarantee on the ceramic product we make is detailed within a guarantee card you will receive in each piece you purchase from Silverdale Bathrooms Ltd. We ask that you complete and return the guarantee to us within 28 days of purchase to qualify for our extended manufacturers warranty.

Our products are guaranteed against manufacturing defect for the following periods:

- Ceramics - Lifetime
- Baths – Lifetime
- Brassware (excluding valves, O rings and seals) - 10 years
- Cistern Fittings – 2 years
- Toilet seats – 2 years (self close system 10 years)

Guarantee Terms:

Our warranty is in addition to your consumer statutory rights and does not affect those rights in any way. It is important to follow our instructions whilst fitting the products and to use the care instructions outlined in our guarantee card. Any claim under the guarantee must first be reported to the retailer where you purchased your goods and must be accompanied by the proof of purchase.

This guarantee covers products supplied for installation into domestic premises in the UK and Ireland only. The guarantee may be transferred to a subsequent purchaser of the premises in which the product is initially installed, but it will not apply if the product is re-installed elsewhere. This guarantee does not extend to any item rendered defective by faulty installation, inappropriate use and accidental damage after purchase, nor does it cover normal wear and tear.

It does not extend to the replacement of any other household fittings arising from any claim. It does not extend to any fitting or installation costs, or to the replacement of any other household fittings arising from any claim.
