MASSIVE STONE –
TRULY EXCLUSIVE
BATHS WITH
SILKY SMOOTH
WARM
SURFACE

XONYX

XONYX

Xonyx massive stone is a unique composite formula created by a leading European solid surface bath manufacturer Balteco.

Xonyx massive stone is a homogeneous mixture of selected mineral fillers and polyester resin with acrylic compounds.

Xonyx massive stone baths offer in addition to exclusive designs, innovative construction, superior structural durability and scratch resistant.

ADVANTAGES

DUAL WALL DESIGN FOR COMFORT AND ENERGY SAVING

Xonyx design team has developed the unique dual wall architecture offering numerous advantages over regular single wall stone baths. The dual wall allows for a comfortable contoured internal surface whilst maintaining stylish external bath shapes offering a more relaxing and ergonomic bathing experience. Dual wall also reduces heat loss keeping Your bath water warm for longer and conserving energy.

XONYX

WARM AND SILKY SURFACE

Xonyx massive stone baths surface are machined into a silky smooth surface quality guaranteeing hygienic properties and it is pleasing to touch.

EASY TO INSTALL

To provide even, sturdy support for these baths and to ensure the weight is well distributed over floor area, a robust bottom support frame with height adjustable legs is integrated into the base of each Xonyx bath. Bath outer layer height is designed to hide the bottom support frame from the view and allow for the drain and on-floor siphon installation without a need for bathroom floor reconstruction.

BUILT-IN OVERFLOW

Xonyx baths all come with a discrete built-in overflow. A neat machined slot allows overflow water to drain through a sealed tube hidden in between dual walls. This hygienic solution also means there are no external overflow pipes or other visible fittings that would spoil the sleek Xonyx look.

WHITE XONYX WASTE

Xonyx baths are all fitted with the beautiful white Xonyx waste plug with durable and serviceable internal pop up mechanism. The absence of any visible chrome or metal fittings means Xonyx baths may be easily combined with tap mixers of any color or finishing.

DELIVERING THE PERFECT BATH

Xonyx baths are delivered in a protective plywood crate on a strong timber pallet in order to guarantee all world-wide shipments in pristine condition.
