Especificações Técnicas

As bases RUBILINE são facilmente cortadas com uma rebarbadora com disco de diamante ou pedra. Mesmo depois de cortada, a superfície da base volta a adquirir o seu aspecto natural e resistente, bastando para isso passar uma lixa fina, para retirar qualquer rebarba, de seguida aplicar óleo (qualquer tipo de óleo) e por fim polir com um pano. A aplicação da base deverá ser feita com cimento cola flex.

As bases podem ser preparadas com um rasgo ou entalhe para vidro de 6, 8 ou 10mm.

Technical specifications

The RUBILINE trays are easily cut into shape with a diamond or stone disc grinder. Even after being cut, the tray surface will return to its natural and resistant state with just a light sanding to remove any shavings. Oil (of any kind) should then be applied and the surface polished with a cloth. The tray should be fitted using a flexible tile adhesive. The trays can be prepared with a 6, 8 or 10mm slot or groove for glass.
