Madison Collection

designed by

**Escribano
Studio**

This collection is the perfect and elegant symbiosis that thoroughly respects the minimal detail that distinguishes the unique style. This was a collection accurately studied in all its lines and finishes, that were the result of a high production quality and experience inherent to ALEAL for decades. MADISON is a new contemporary, avanguard product with noble veneers such as eucalyptus fris . All materials are of high quality, which makes this collection the perfect and versatile ingredient to complement every home.
