# **FINISHES**

Our “living” finishes make the difference for lighting choices that are unique in personality and design appeal. **We use authentic natural materials to give our products their custom character:** brass, bronze, nickel, silver and chrome in antique and polished lusters; classic enamels, ceramic, porcelain and gilding; forged irons and honed woods; hand blown glass; rock crystal and alabaster; elegant parchment papers, silks and linens.

Our selection of more than eighty finishes is a central part of our promise to serve all aesthetic preferences and design applications in our lighting.

These abundant options can help you adapt your favorite lighting profiles to the right mood for your project. From the superior quality of our Hand-Rubbed Antique Brass and Polished Nickel to the perfect elegance of Gilded Iron and Antique Silver Leaf, and many more casual and painted finishes in between, we have the look that will help you create your own lighting décor.

**CARE INSTRUCTIONS**

All products should be cleaned with a soft, dry cloth or duster. Our products should never be sprayed with a cleaning solution or polish. When it is necessary to use a cleaning agent, please apply only a mild detergent to a soft, damp cloth for gentle cleansing. Do not use scouring agents, abrasive sponges, hydrochloric acid, vinegar, ammonia, petroleum distillate or metal silicates.

**CUSTOMIZATION**

Many of our products can be modified in our custom department. Changing height, finish or switch type on an item can be done upon request.

**VARIATION**

Minor variations may occur in product dimensions and finishes due to the handmade nature of our products. We recommend that designs being purchased in pairs or sets for a specific job be ordered together to ensure they match.
