passionate about lamps

Welcome to Creative Mary

creativemary

Our passion for lamps brought out a new personality in our design team, someone we like to name CreativeMary. Always in love with all things artistic, feminine and sophisticated, through CreativeMary we present unique and artisanal designer lamps inspired on the vast and fascinating world that surrounds us. Some days we like to be more subtle and classical; on other days, this personality takes on a more seductive and eye-catching form.

Combining a wealth of noble glasses and metals with innovative, handcrafted production techniques, these pieces carry a highly refined vision, made to stimulate the senses and arouse hidden emotions.

CreativeMary is a Portuguese design lighting brand with a background in lamps production of nearly seventy years. Our expert production is one of the few in Europe that still combines glass and metal work craftsmanship.

naturemary

Collection

Fascinated by the elements of nature, with CreativeMary we dive in the deepest oceans, climb the tallest, most majestic mountains and fly high in the sky in our unending search for inspiration in the natural wonders that surround us.

Flora and fauna, water and land guided the pen through the drawing paper and our unique vision came to life to elevate this singular lamp selection to extraordinary levels of refinement and sophistication.

cosmomary

Collection

Every metropolis has a heartbeat, a light and a rhythm, emotion with a hefty dose of drama. They are usually precious places and they leave you with prized memories. In this collection, CreativeMary aims to light up urban life with more than design pieces; you will get a diversity of lamps filled with memories and unique sensations in perfect harmony with your spaces and your personality.

CosmoMary collection is a contemporary fusion of pieces essentially created with high-quality metals, fabric and glass, all connected by the thin layer of a round-the-clock creative frenzy.
