Electric

Exclusive Fireplaces

Relaxing moments
Enjoy those moments with
pleasure in the comfort of your
home.

Your comfort first

GlammFire electric fireplaces join the contemporary with technology, being great options when choosing design, safety and ecology. As a result of fire concept evolution and specially designed to match with the most different environments, these products, in addition to ensuring an excellent heating, present a versatile style and an elegant structure that value and fit perfectly in interior decorating projects.

Easy, simple and secure installation | Low power consumption | Eco-friendly Technology: 0% CO₂ emissions | Indoor Air Quality | Safety: 100% | Remote control

LCD Fire Technology

The sensuality of fire
reveals new expressions.

*The innovative LCD display allows you to experience the audiovisual reproduction, while enjoying, with comfort and pleasure, those more pleasant environments.
Get the perfect harmony between the optical flame and sound effect by remote control technology.*

*LCD display – single or double screen
Optical flame effect – audiovisual reproduction
Remote control with volume control – sound effect
Built-in speakers*

Vintage

Let revivalism enter your home.

*A combination of revivalist design and LCD technology.
Give a distinctive and sophisticated character to the interior design.*

Cognitus

Emotional environments definitely deserve a great differentiator and decorative element.

With a visually distinctive and attractive expression, Cognitus seduces immediately. The details of its design in combination with LCD technology give it a posture full of decorative intention.

3D Water Vapour Fire Technology Water feels fire in a new dimension.

Featuring the most advanced and innovative 3D eco-friendly technology the 3D electric fireplaces ensure a simple and safe use by applying an efficient operability of a water vapour release system.

The inner works of the 3D combines the latest technologies such as LED and a water vapour generator to simulate smoke. Added to a set of energy saving halogen bulbs, the system constantly regulates the intensity of the lights to the emission of the water vapour and delivers an amazing virtual flame that looks and feels remarkably realistic at any distance, a realistic aspect of real wood fireplace.

As ideal solution for public spaces the 3D has the added value of presenting itself as an eco-friendly product that does not contribute to the waste of energy nor harms the environment.

Gema

The decorative spirit of your home feels more reinforced with the incorporation of 3D technology.

Completely designed in natural stone, Gema presents itself as a model full of soul and life. In addition to prestige and exoticism, its simple approach gives a unique personality and timeless beauty to spaces.

Senses 3D

When the subject is modernity, choose simple lines and shapes.

Senses 3D adds both simplicity and good taste.

With a strong ecological aspect, it not only contributes to the interior design but also to the heating. The realism of 3D technology is combined with a variety of finishes and colors, allowing you to find the best solution that fits well to the type and style of your decor.

Hotel Lilla Roberts, Helsinki – Finland

Kits Glamm 3D

The beauty of the spaces lies in the details.

Assuming themselves as true protagonists in terms of decor, Kits Glamm 3D are conspicuous by their great versatility and ability to create a pleasant interior atmosphere. Owing to the use of 3D technology they provide also an incredible sense of visual comfort and aesthetic balance.

LED Fire Technology

The sophistication of flame
creates moments of pleasure.

Equipped with LED technology and heating elements with 1 or 2 kW, the LED electric fireplaces provide the optical effect of a real flame and a pleasant temperature in any room of your home.

The remote control allows you to control the silent operation of the flame, and the interdependence between the flame and the heating system, allowing thus the option of heating or flame operation, or both.

Enjoy this new concept of fireplace in your living room, bedroom, bathrooms, kitchen, or in any other area where you want to create a different environment

GL

Customize and turn your environments an extension of yourself.

The GL electric fireplaces emphasize the quality and functionality of your environments. Additionally, they add sophistication and aesthetic value. Forget the rigorous work of installation and maintenance.

GL 1200

GL 1700

GLHD

Definitely, there is no comfort as the comfort of our home.

With a purely technological essence, the GLHD electric fireplaces value the interior of your home. The decorative scenery is enhanced and the demands of comfort and well-being are corresponded.
